

AMERICAN ACADEMY OF FIXED PROSTHODONTICS 2010 SCIENTIFIC SESSION

FRIDAY, FEBRUARY 26, 2010

**CARL F. DRISCOLL,
DMD**

BIOGRAPHICAL SKETCH:

Dr. Carl F. Driscoll received his DMD from Tufts University in 1977. He completed a General Practice Residency at Ft. Meade, MD in 1978 and received his prosthodontic training at Letterman Army Medical Center in San

Francisco in 1986. In 1990, he completed a Fellowship in Maxillofacial Prosthetics at the National Naval Dental School in Bethesda, MD. Dr. Driscoll currently serves as a Professor at the University of Maryland Dental School and as Director of the Prosthodontic Residency. He previously held the same position with the United States Army at Walter Reed Army Medical Center in Washington, DC from 1994-1997. Dr. Driscoll retired from the U.S. Army in 1997 with the rank of Colonel. Dr. Driscoll is a Diplomate of the American Board of Prosthodontics and a Fellow of the American College of Prosthodontists. Dr. Driscoll is a Director of the American Board of Prosthodontics. Dr. Driscoll has given over 200 presentations nationally and internationally to include South America, Sweden, Brazil, Germany, Korea, Japan, Singapore, Poland, Israel, Mexico, Canada, Brazil, Uruguay, and the Marshall Islands. He has authored numerous papers, abstracts, and book chapters.

LECTURE TITLE: "What does the future hold for us? A Review of the Edentulous Patient Restored with Implants: A Retrospective and Prospective Look"

LECTURE SYNOPSIS:

We have seen the evolution of complete dentures relying on the intimate fit of the denture to the soft tissues of the mouth to a denture that is completely retained by implants. This presentation will discuss current and potential future problems that may arise, as we restore the completely and partially edentulous mouth with implant prostheses.
