ESSAY PRESENTATIONS

9:00
1. Harvey L. Colman, D.D.S., Associate Professor, University of Southern California, Los Angeles, California.

"EVALUATION OF CRITERIA FOR SUCCESSFUL RETAINER DESIGNS."
Observation of contemporary dental practice shows increased reliance upon extensive retainer designs for fixed partial dentures. This may be due to social trends or to observed failures of partial veneer designs. Numerous cases have shown, however, that partial veneers remain very effective in contemporary practice although case selection may be more critical than with full coverage designs. This presentation will document cases illustrating failure as well as success combined with the results of studies which relate to the problems of abutment selection.

10:30
2. Raymond Kim, D.D.S., M.S.D., Assistant Professor of Fixed Prosthodontics, University of Southern California, Los Angeles, California.

"THE VITREOUS CARBON 1800 ENDOSTEAL IMPLANT."
The contents of this lecture will concentrate on the Vitreous Carbon 1800 Endosteal Implant which is under study at the University of Southern California School of Dentistry. It will include the surgical restorative procedures, radiographic evidence of healing and histological evaluations of the implant in animals and humans.

FRIDAY AFTERNOON
February 8, 1974

1:30

"COLOR IN FIXED PROSTHODONTICS."
A better understanding of the physical, psychophysical and psychological aspects of color can aid the fixed prosthodontist in making better shade selections and altering finished ceramic restorations.
4. Professor Peter Scharer, Director of the Department of Crown and Bridge Prosthodontics, Dental School, University of Zurich, Zurich, Switzerland.

"BRUXISM: RECENT NEUROPHYSIOLOGICAL RESEARCH AND ITS CLINICAL APPLICATION."
The lecturer discusses the use of various neurophysiological technics to investigate the peripheral as well as the central nervous aspects of bruxism. Based on findings in animal experimentation bruxism seems to be primarily a central nervous phenomenon. The clinical consequences are discussed in the second part of the conference.

4:30
General Meeting, Members only.
