February 14, 15 1987

February 20, 21 1988

February 18, 19 1989

**THE AMERICAN ACADEMY
OF CROWN AND BRIDGE
PROSTHODONTICS**

THIRTY-FIFTH ANNUAL MEETING

FEBRUARY 15, 16, 1986

**HYATT REGENCY CHICAGO
CHICAGO, ILLINOIS**

THE ORIGIN AND HERITAGE OF THE AMERICAN ACADEMY OF CROWN AND BRIDGE PROSTHODONTICS

The American Academy of Crown and Bridge is the leading national voice of crown and bridge prosthodontics. Its membership is composed of educators, clinical practitioners and researchers of this important discipline of dentistry.

The purpose of this organization is to achieve by mutual study and cooperation, activities reflecting a high and ethical standard of practice as well as teaching and research in the art and science of crown and bridge prosthodontics.

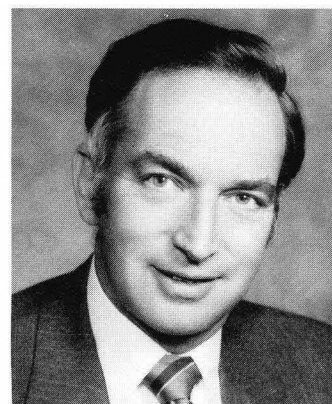

The Academy had its origin in 1950, in Chicago, Illinois. The three men who deserve credit for the concept and preliminary plan for the Academy were: Dr. Stanley D. Tylman, Dr. Claude R. Baker and Dr. George H. Moulton. These men of vision rallied other important leaders in the crown and bridge field to actively support their cause. Together they planned an organizational meeting that took place at the Stevens Hotel on February 5, 1951. Those present at that meeting were: Doctors Stanley D. Tylman, Arthur O. Klaffenbach, Robert P. Dressel, Alver Selberg, Charles E. Peterka, Earl A. Nelson, Claude R. Baker and George H. Moulton. Dr. Baker was chosen temporary chairman and Dr. Moulton temporary secretary.

The next meeting was at French Lick, Indiana on March 19, 1951 where the tentative Constitution and By-Laws were presented for final approval. Charter members were initiated into the Academy on February 2, 1952 in Chicago, making this the first annual meeting of the Academy of Crown and Bridge Prosthodontics. We have continued to grow and expand our national and international membership to our present total of 381.

Members of today have a proud heritage in the Academy. We continue to dedicate ourselves to the pursuit of knowledge, truth and competency in research, in teaching, and in the clinical practice of crown and bridge prosthodontics.

Jesse Bullard,
Historian

II

PRESIDENT'S MESSAGE

HERBERT PTACK, D.D.S., F.R.C.D.

It is with great pride that I welcome all members and guests to our Thirty-Fifth Annual Meeting of the American Academy of Crown and Bridge Prosthodontics.

Our program theme "Fixed Prosthodontics; A Specialty With Panache", will feature national and international speakers, outstanding researchers, teachers and clinicians who have consented to share their expertise. Certainly when our two day program will be completed I am confident we will all return to our Universities and practices, enthusiastic to continue to strive for the high degree of perfection so synonymous with the practice of Fixed Prosthodontics.

The executives, board of directors and members of this Academy hope that our guests will join with us to create an atmosphere of fellowship and camaraderie during this meeting. The history of our Academy has been shaped by the excellence of its scientific program and the fellowship of its members and guests. I hope that these two days will continue to follow in the footsteps of past meetings and allow us to renew friendships and make new ones so that we can look to our future meetings with expectation and enthusiasm.

III

PAST PRESIDENTS

* Claude R. Baker	1952-1953
* Robert P. Dressel	1954
* E. David Shooshan	1955
* Earl Allen Nelson	1956
L. Walter Brown, Jr.	1957
George H. Moulton	1958

PROGRAM SYNOPSIS SATURDAY, FEBRUARY 15, 1986 GRAND BALLROOM A & B

Theme: Fixed Prosthodontics: A SPECIALTY WITH PANACHE

- | | |
|------------|---|
| 8:00 A.M. | Registration and Continental Breakfast |
| 8:45 A.M. | Presidential Greetings - Dr. Herbert Ptack |
| 8:55 A.M. | Program Co-Chairmen - Comments-Introductions: Drs. Lloyd Miller and Ralph Yuodelis |
| 9:00- | "Quality Control, An Essential for Predictable |
| 10:00 A.M. | Restorative Dentistry" Peter Dawson, D.D.S., F.A.C.D., F.I.C.D. |
| 10:00- | "The Role of Orthodontics in Multidisciplinary |
| 11:00 A.M. | Management of the Adult Dentition" Harvey L. Levitt, D.D.S., F.R.C.D. (c) |
| 11:00- | "The Significance of Osseointegration in |
| 12:00 P.M. | Prosthodontics" George A. Zarb, B.Ch.D., D.D.S., M.S., M.S., F.R.C.D. (c) |
| 12:00- | LUNCH - A lunch ticket is included in your |
| 2:00 P.M. | registration envelope. The location is the Grand Ballroom C-D. The luncheon speaker is Judge John L. Coffey, "Current Trends in Malpractice Litigation" |
| | Presentation of certificates - newly elevated Active Members of the American Academy of Crown and Bridge Prosthodontics by Dr. Herbert Ptack (President). |
| | Introduction and Installation of new Officers. Photographs of Officers, Charter Members, Clinicians and New Members. |
| 2:00- | "Periodontal and Occlusal Interactions in |
| 3:00 P.M. | Restorative Dentistry" Jan H.N. Pameijer, D.M.D. |
| 3:00- | "Pre-prosthetic Periodontal Surgical Pro- |
| 4:00 P.M. | cedures to Enhance Function and Esthetics" Herman Corn, D.D.S., F.A.C.D. |
| 4:00- | "The Geller Advanced Porcelain Technique" |
| 5:00 P.M. | Mr. Willi Geller, Master Ceramist |

PROGRAM SYNOPSIS SUNDAY, FEBRUARY 16, 1986 GRAND BALLROOM A & B

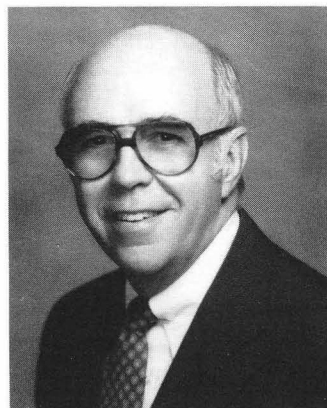

- | | |
|-----------|---|
| 8:00- | Continental Breakfast |
| 8:45 A.M. | |
| 8:45- | "Ultrathinned and Collarless Copings for |
| 9:30 A.M. | Metal-Ceramic Restorations" Kenneth J. Anusavice, D.M.D., Ph.D. |

6.

Stanley D. Tylman Essay Contest Finalists

- 9:30-10:15 A.M. Harry E. Rosenstein, Eastman Dental Center
Gerald N. Graser, Sponsor
Title: "Compressive Strength Comparison of Solid and Hollow Pontic Designs for Ceramometal Fixed Partial Dentures"
- 9:45 A.M. Anthony J.G. Dickinson, Indiana University
Roland W. Dykema, Sponsor
Title: "A Comparative Study of the Strength of Aluminous Porcelain, Cerestore and Dicor All-Ceramic Crowns"
- 10:00 A.M. Ihab A. Hammad, University of Minnesota
Richard J. Goodkind, Sponsor
Title: "The Effects of Firing Cycles, Surface Texture and Metal Types on the Bond Strength of the Ceramo-Metal Complex Using an Innovative Shear Test"
- 10:15-11:15 A.M. "Periodontal Considerations: Abutment Evaluation and Retainer Selection" Robert R. Faucher, D.D.S., M.S.D.
- 11:15-12:00 P.M. "Planned Provisional Restorations" Terry R. Morgan, D.D.S., M.S.D.
- 12:00-1:45 P.M. LUNCH--On Your Own
- 1:45 P.M. Winners of Essay Contest; Awards and Presentations
- 2:00-4:00 P.M. Projected Clinics: "A Porcelain Symposium"-
GRAND BALLROOM A & B
- 2:00 P.M. Dr. Ronald Jarvis - "Renaissance Crowns"
- 2:20 Dr. David Simmons - "Porcelain Jacket Crowns"
- 2:40 Dr. Ronald Goldstein - "Cerestore Crowns"
- 3:00 Dr. Reuben Roach - "Dicor Castable Ceramics"
- 3:20 Dr. Sumiya Hobo - "Castable Hydroxylapatite Ceramics"
- 3:40 Panel Discussion-Written questions to be submitted by the audience
- 4:00 P.M. Reception and Cocktail Party - COLUMBUS HALL SOUTH
- 5:30 P.M. New Officers and Board of Directors Meeting-Academy Suite

Saturday, Feb. 15, 1986
9:00 A.M. - 10:00 A.M.

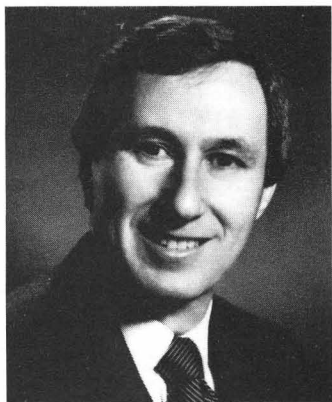

PETER E. DAWSON, D.D.S., F.A.C.D., F.I.C.D.

"Quality Control, An Essential for Predictable Restorative Dentistry"

SYNOPSIS: Predictably successful restorative dentistry requires determination and communication of a number of specific guidelines. How those guidelines are determined, communicated, and then verified is the subject of this presentation.

CURRICULUM VITAE: Professorial Lecturer in Crown & Bridge, Georgetown University, School of Dentistry; Visiting faculty - L. D. Pankey Institute; Author of the Text: **Evaluation, Diagnosis & Treatment of Occlusal Problems**; Past President of The American Equilibration Society; Past President of The American Academy of Esthetic Dentistry. He has received many honors, including The coveted Thomas P. Hinman Medallion award for "Leadership in Dental Progress", in 1964. In 1982 - The New Orleans Dental Conference presented him with The Achievement and Humanitarian Award, for service to mankind through excellence in restorative dentistry. In 1983 - Dr. Dawson received The Thomas P. Hinman Distinguished Service Medal.

Saturday, Feb. 15, 1986
10:00 A.M. - 11:00 A.M.

HARVEY L. LEVITT, D.D.S., F.R.C.D.(c)

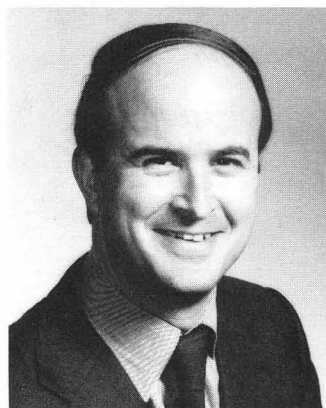

**"The Role of Orthodontics in Multidisciplinary
Management of the Adult Dentition"**

SYNOPSIS: The restoration of acceptable function in the mutilated dentition case often presents a real challenge for the conscientious practitioner. The valuable role of the orthodontist in setting-up these cases for the prosthodontist will be thoroughly illustrated in this presentation. Special emphasis will be placed on the intricacies of treating those patients with periodontal or TMJ involvement. It will also be shown how the periodontal status can be enhanced through orthodontics.

CURRICULUM VITAE: Clinical Assistant Professor of Orthodontics and Periodontics - University of Pennsylvania School of Dental Medicine; Assistant Professor - McGill University Department of Orthodontics; Attending Staff - Jewish General Hospital and Montreal General Hospital; Member: Alpha Omega, Quebec Association of Orthodontists, Mount Royal Dental Society.

9.

Saturday, Feb. 15, 1986
11:00 A.M. - 12:00 A.M.

**GEORGE A. ZARB, B. Ch.D., D.D.S., M.S.,
M.S., F.R.C.D.(c)**

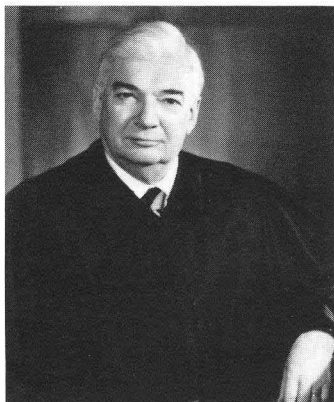

**"The Significance of Osseointegration
in Prosthodontics"**

SYNOPSIS: The area of dental implants has been long on anecdote, short on science. Recent longitudinal clinical research in Sweden and Toronto has underscored the feasibility of a predictably safe method of osseointegrating tooth root analogues. The scientific background and clinical implications of this method will be reviewed and analyzed.

CURRICULUM VITAE: Association of Prosthodontists of Canada; Academy of Denture Prosthetics; Author of several texts on Prosthodontics.

10.

Saturday, Feb. 15, 1986
12:00 P.M. - 2:00 P.M.
Luncheon Speaker

JUDGE JOHN L. COFFEY

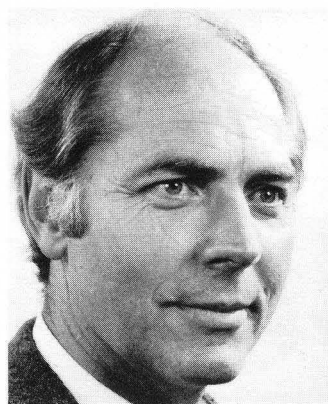

"Current Trends in Malpractice and Litigation"

SYNOPSIS: The increasing number of dental malpractice claims looms as a potential crisis for the dental profession, threatening to substantially raise the cost of providing necessary dental services. Several factors have given rise to the growth of malpractice claims, including changes in malpractice law, changes in the relationship between dentist and patient, and also a number of cases of incompetent dental work. A dentist who is informed of the type of questionable dental practices that commonly lead to malpractice claims is better equipped to avoid liability himself. In addition, the public should be informed of the impact of malpractice claims on the cost of providing dental care and also of the efforts of the dental profession to police itself. Finally, the dental profession must work towards responsible changes in the law to reduce the number of frivolous claims and excessive awards. Only if appropriate action is taken now will high-quality dental care continue to be available to the public at a reasonable cost.

CURRICULUM VITAE: B.A. Marquette University 1943; J.D. Marquette University Law School 1948; Assistant City Attorney of Milwaukee 1949-1954; Municipal Court Judge Milwaukee 1960-1978; United States Court of Appeals 1982-present; Member: American Bar Association; American Bar Foundation; Illinois Bar Association.

11.

Saturday, Feb. 15, 1986
2:00 P.M. - 3:00 P.M.

JAN H. N. PAMEIJER, D.M.D.

"Periodontal and Occlusal Interactions in Restorative Dentistry"

SYNOPSIS: There are multiple reactions between restorative dentistry, periodontal health and the occlusion. Recognition of the positive and negative effects of restorative dentistry, both on the periodontium and the occlusion, will help the clinician in obtaining and maintaining a healthy dentition with crowns and bridges. The presentation will focus on restorative procedures aimed at periodontal health and optimum occlusion.

CURRICULUM VITAE: D.M.D. Tufts University, School of Dental Medicine; Private practice in Amsterdam, Holland; Director of Dental Center for Postgraduate Courses in Amsterdam, Holland.

12.

Saturday, Feb. 15, 1986
3:00 P.M. - 4:00 P.M.

HERMAN CORN, D.D.S., F.A.C.D.

**"Pre-prosthetic and Periodontal Surgical Procedures
to Enhance Function and Esthetics"**

SYNOPSIS: The role of the periodontist has expanded beyond the fundamentals expected from his expertise. Many innovative procedures have now enlarged his contribution to the long-term success of restorative & prosthetic procedures.

CURRICULUM VITAE: Professor of Periodontics - University of Pennsylvania School of Dental Medicine; Diplomate and Past Vice Chairman - American Board of Periodontology; Past President American Society of Preventive Dentistry; Fellow American College of Dentists; Visiting Lecturer - National Naval Dental Center, Bethesda, Maryland; Member: American Academy of Periodontology; American Dental Association and Components; Former President Pennsylvania Society of Periodontology; Former President Philadelphia Society of Periodontology.

13

Saturday, Feb. 15, 1986
4:00 P.M. - 5:00 P.M.

MR. WILLI GELLER, MASTER CERAMIST

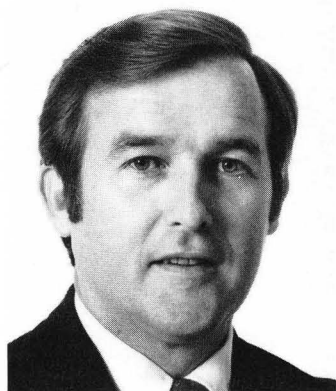

"The Geller Advanced Porcelain Technique"

SYNOPSIS: Mr. Willi Geller has developed many current techniques of internal coloration of dental porcelains. His artistic interpretations of the optical quality of dental porcelains have been presented throughout Europe and the United States. Mr. Geller will explain the principles and nuances of his techniques.

CURRICULUM VITAE: Mr. Willi Geller is a dental laboratory owner and Master Ceramist from Zurich, Switzerland.

14

Sunday, Feb. 16, 1986
8:45 A.M. - 9:30 A.M.

KENNETH J. ANUSAVICE, D.M.D., Ph.D.

**"Ultrathinned and Collarless Copings for
Metal-Ceramic Restorations"**

SYNOPSIS: Improved esthetics can be achieved with metal-ceramic crowns when ultrathinned or collarless copings are employed. These design options are frequently avoided because of the belief that such crowns may distort due to incompatibility stresses or they may fail prematurely in clinical service because of the inability to support intraoral forces. This presentation will provide a comparative analysis of the esthetic potential of these crowns and their resistance to thermal mismatch stresses and simulated intraoral stresses.

CURRICULUM VITAE: Professor and Chairman, Department of Dental Biomaterials, University of Florida; Reviewer - Journal of Dental Research, ADA Acceptance Program; Chairman ADA/ANSI Subcommittee on Porcelain-Alloy Systems; Fellow Academy of Dental Materials; Member: American Dental Association; American Association of Dental Research; International Association of Dental Research; American Association of Dental Schools; Dental Materials Group (IADR).

15

Sunday, Feb. 16, 1986
9:30 A.M. - 10:15 A.M.

STANLEY D. TYLMAN

Essay Contest Finalists

16

Sunday, Feb. 16, 1986
10:15 A.M. - 11:15 A.M.

ROBERT R. FAUCHER, D.D.S., M.S.D.

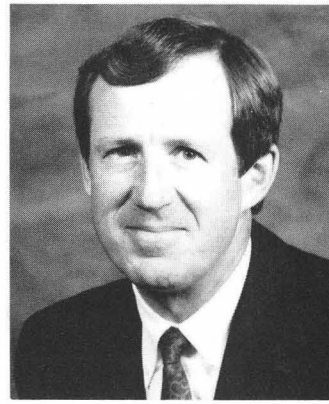

**"Periodontal Considerations: Abutment Evaluation
and Retainer Selection"**

SYNOPSIS: The ultimate indication of success in dentistry is the maintenance of a healthy stomatognathic system. When contemplating any tooth replacement system, all factors that would lessen maintainability must be identified and assessed. The cardinal diagnostic questions are how much compromise each factor represents and how much alteration of the existing condition is required in order to provide the desired prosthetic result.

CURRICULUM VITAE: Dr. Faucher's educational background includes a D.D.S. from the University of the Pacific in San Francisco and graduate studies at the University of Washington leading to an M.S.D. and certification in the area of Fixed Prosthodontics. He has presented numerous courses on the various aspects of prosthetic rehabilitation in the United States and Europe. He is an Active Member of the American Academy of Crown and Bridge Prosthodontics.

17.

Sunday, Feb. 16, 1986
11:15 A.M. - 12:00 Noon

TERRY R. MORGAN, D.D.S., M.S.D.

"Planned Provisional Restorations"

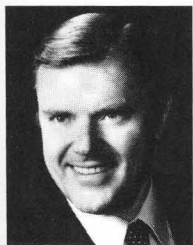

SYNOPSIS: A planned provisional restoration provides the opportunity to examine and assess many considerations that are integral to the success or failure of fixed restorations. Many questions arise in treatment planning fixed restorations. Questions relating to occlusion, esthetics, phonetics, tooth mobility, retention, tooth vitality, etc. The provisional restoration can answer many of these questions providing it is adequately planned, carefully fabricated, and given an adequate clinical trial. A predictable restorative result can then be obtained by utilizing this information directly in the fabrication of the permanent restoration.

CURRICULUM VITAE: Dr. Morgan received his D.D.S. degree from the University of Alberta in 1967 and his M.S.D. degree and certificate in Fixed Prosthodontics from the University of Washington in 1977. He is an associate professor at the University of Alberta and has been active in teaching and research since 1970. He is a member of the Canadian Academy of Restorative Dentistry and the American Academy of Crown and Bridge Prosthodontists.
