

American Academy of Fixed Prosthodontics PRESIDENTIAL BIOGRAPHY

SARIT KAPLAN, DMD, MS, FACP

Dr. Sarit Kaplan is a graduate of the Hebrew University, Hadassah School of Medicine in Jerusalem, Israel, where her interest in prosthodontics started. She practiced as a general dentist for a few years, until starting the post graduate program in prosthodontics at the University of Maryland where she earned a certificate in prosthodontics and a master's degree in oral biology. Following graduation from the prosthodontic program, Dr. Kaplan joined a group practice in Bethesda, Maryland and served as a part-time clinical assistant professor in both the undergraduate program and postgraduate prosthodontics program. She became a Diplomate of the American Board of Prosthodontics a few years later while raising her children, developing her private practice and continuing with her passion to teach prosthodontics. Dr. Kaplan has been an active member in many local and national dental organization and has served on their board of directors and different committees and has served as a past president of the Maryland ACP section.

Dr. Sarit Kaplan has been a member of the American Academy of Fixed Prosthodontics since 2010 and has been a very active member in the academy, including chairing the Poster Presentation Program for 6 years, chairing the Scientific Program in 2023 and on the board of directors of the academy.

American Academy of Fixed Prosthodontics PRESIDENTIAL BIOGRAPHY

She has been a dedicated volunteer including providing treatment to Holocaust survivors in the Washington DC area and as Dental Director of a large nursing home in Montgomery County, Maryland.

Dr. Kaplan has been continuing to develop her eight-dentist multi-specialty private practice treating TMD patients and complexed prosthodontic and implants patients including trauma patients, oncology patients, maxillofacial, medically compromised patients, and those born with genetic deficiencies effecting their head and oral development.

Dr. Kaplan is married to a long time and very active member of this academy as well – Dr. Carl Driscoll, and together they have 4 children: Scott, Tracey, Dean and Shir and 4 grandchildren: Henry, Hadley, Cole and Jackson.
